## Summary

A detail-oriented and highly skilled software engineer with over 3 years of experience in developing robust web applications using React.js. Seeking to leverage my expertise in frontend development to contribute to innovative projects and drive company growth.

## Skills

| | |
|---|---|
| **Font-End** | HTML, CSS, Bootstrap, JavaScript, Typescript, Tailwind css, React.js, Redux, Next.js, GraphQl, Material UI, Chakra UI |
| **Back-End** | Node.js, Express.js |
| **Version Control** | Git |
| **Databases** | MySQL, MongoDB |
| **Tools** | VS Code, Ubuntu, Windows |
| **Design** | Adobe Photoshop, Adobe Illustrator |

## Work Experience

**Suffix IT Limited** *Dhaka, Bangladesh*

SOFTWARE ENGINEER (REACT.JS) *Jan. 2021 - Jul. 2024*

- Implemented secure authentication using JWT tokens and refresh tokens, ensuring robust user authentication and authorization mechanisms.
- Proficient in building role-based applications, allowing for dynamic rendering and access control based on user roles.
- Integrated Socket.io to implement live notifications and alerts, enhancing real-time communication and user engagement
- Leveraged custom hooks, Context API, and Redux for efficient state management, ensuring a seamless flow of data throughout the application.
- Applied image compression techniques to optimize performance and user experience in handling and displaying images within the application
- Utilized Recharts and Apex Charts for effective data visualization, creating visually appealing and informative charts and graphs
- Generated dynamic reports in both XLSX and PDF formats using libraries like jsPDF, providing users with exportable and printable data
- Contributed to the improvement of application performance and user experience through continuous optimization and refactoring of code
- Collaborated with cross-functional teams to analyze requirements, propose solutions, and deliver high-quality React.js applications on time
- Maximized use of Events and promises in ES6 and React for application control flow.
- Worked with AXIOS, promise based HTTP client for the browser and node.js for hitting REST endpoints and fetching data into the app.

## Projects

### PERSONAL PROJECTS

- **Go Chat**
  - A React.js chat application.
  - Implemented JWT authentication, stored and accessed data through Context.
  - Used Socket.io for eastablishing realtime communication.
  - *Technologies Used: React.js, Context, Tailwind CSS, Socket.io*
  - 🌐 Live  ⚙ Github

- **TRW : An International Law Firm.**
  - Developed a responsive and pixel perfect web application for TRW with Next.js.
  - Implemented API for customized menu handling and for the articles section
  - Created Custom hooks for API call and for getting window Size
  - Implemented JWT authentication for secure user authentication and authorization.
  - *Technologies Used: Next.js, Tailwind CSS, JWT*
  - 🌐 Live

- **React Conference**
  - Developed a responsive and pixel perfect web application from FIGMA Template.
  - Utilized GraphQL for efficient data fetching within the application.
  - Used Typescript within the App for type safety
  - Created Custom drag and drop reordering on the conference details page
  - *Technologies Used: Next.js, Typescript, GraphQL*
  - 🌐 Live  ⚙ Github

# Education

**Southeast University**                                                    *Dhaka, Bangladesh*
B.Sc. in CSE                                                                                *2020*
CGPA: 3.59/4.0

**B.N College, Dhaka**                                                       *Dhaka, Bangladesh*
H.S.C                                                                                       *2015*
GPA: 5.0/5.0

**Shaheed Police Smrity College**                                            *Dhaka, Bangladesh*
S.S.C                                                                                       *2013*
GPA: 5.0/5.0

# Strength

- Honest and Punctual
- Quick learner and analytical thinker
- Effective team player
- Proactive and challenge-driven

# Language Proficiency

- **English:** Reading, Writing, Speaking
- **Bangla:** Reading, Writing, Speaking
